Executive Remove

19 February 1959

Lt. General Joseph M. Swing Commissioner, Immigration and Maturalization Service Department of Justice Washington, D. C.

Dear Joe:

Attached is a copy of the letter from Maurice Stass we discussed last evening.

I would certainly be most appreciative to receive your comments in view of your deep interest in this matter.

Sincerely,

Allen W. Dulles
Director

## EXECUTIVE OFFICE OF THE PRESIDENT

SUREAU OF THE BUDGET

WASHINGTON 25, D. C.

FIB 12 :959

My dear Mr. Delles:

At the request of the President, the Sureau of the Budget has been studying certain recommendations made by Mr. Clarence Eandall in his April 17, 1958, Report on International Travel. Those recommendations involve the establishment of praflight inspection and waiver of visus for nominaignest matienals of adjacent countries and soutiguous islands.

In October, the Bureau wrote lette; s to the Departments of the Treasury, Justice, Agriculture, and Health, Education and Walfare concerning preflight inspection and waiver of vises in Canada and Bermuda, where they are already in effect, and in Mexico, Cuba, and the Bahamas. The Department of Justice favors the initiation of preflight inspection and the waiver of visas for nonimmigrants boarding nonstop flights to the United States at the airports serving Mexico City, Havana, and Massau. Enclosed is a description of the procedures which the Immigration and Maturalization Service proposes to adopt in those three locations.

The proposal of the Immigration and Naturalization Service to establish preflight inspection was referred to the Interdepartmental Intelligence Conference for its consideration with particular respect to security and intelligence screening. Enclosed is a copy of a letter from Mr. J. Edgar Boover containing the conclusion of the Interdepartmental Intelligence Conference.

The Bureau of the Budget is interested in receiving your views as to whether adoption of the Immigration and Naturalization Service proposal is desirable and appears to be practicable. In addition, we would like to know if the proposed procedure will make adequate use of the information in various agency files, including those of the Central Intelligence Agency, to serve the interests of the United States in cases of applications for manimum restricts.

m 2 -

It would be appreciated if your reply could be reserved as some as possible.

Rincerely yours,

(Migned) Marrice H. Stans

tirenter.

Henerable Allen W. Dulles Director, Central Intelligence Agency Washington & D. C.
